WARNING

NAVIONICS, C-MAP and K-CHART electronic charting system (ECS) are derived from geographical data including official government charts which we believe to be accurate. They are neither verified nor approved by Hydrographic Authorities.

NAVIONICS, C-MAP and K-CHART ECS are designed only to ease and speed navigation calculations and so must not be relied upon as a primary source of navigation information but rather a backup to use of official government charts and prudent navigation habits.

There is no direct relationship between the color of water areas and their depth. The navigator shall always query the area for depth information and use the official paper charts.
